

TO WHOM IT MAY CONCERN

Company TATINTEK would like to express positive experience with company NAFTAMATIKA as a supplier of rod pump controllers WellSim. We can define our cooperation with NAFTAMATIKA company as a high level partnership and their approach as very professional.

We also would like to express our satisfaction with the performance of WellSim controllers installed on our wells. WellSim controllers helped us to achieve our goals in increasing efficiency of the pumps through increasing production while minimizing breakdowns and maintenance costs.
